About us

AGRICO QATAR stands as a pioneering and privately-owned Qatari Agricultural Development Company, established with a steadfast commitment to fostering sustainable, long-term agricultural practices. Founded on the core principle of contributing to the national pursuit of achieving food security, AGRICO has diligently pursued this goal by integrating homegrown innovation, harnessing international expertise, and leveraging the most advanced technological advancements available worldwide. The company's ethos revolves around the harmonious blend of local ingenuity, global knowledge, and cutting-edge technology, all channeled towards the noble ambition of bolstering Qatar's self-reliance in food production.

Introducing Our Business

With our long experience in food imports, storage and distribution since the early 1950's, we initiated an in-depth study into the import pattern and consistency of Vegetables & Fruits into Qatar and it was revealed that there is massive dependency on regional and neighbouring countries for our daily needs of Vegetables & Fruits.

We have taken the initiative of helping transform Qatar into selfsufficient state and started cultivation of Vegetables in our high-tech greenhouse in Al Khor, north of Qatar. Our greenhouses are currently utilised for cultivation of fruits and all kinds of herbs and greens and a separate unit for Mushroom.

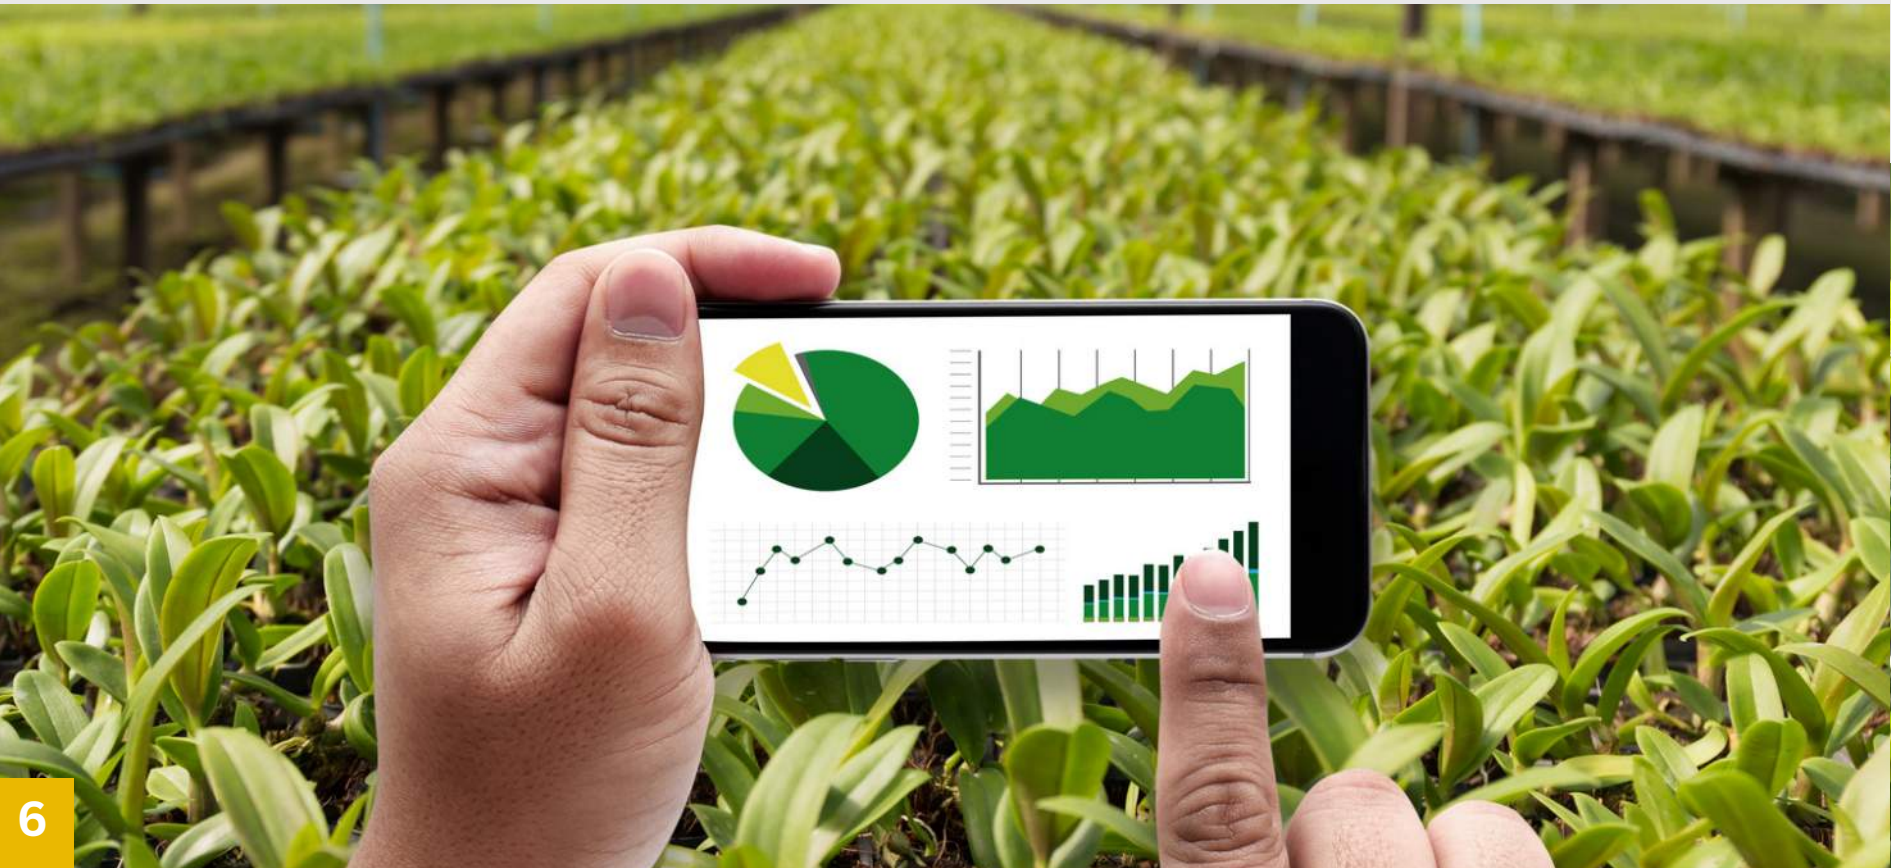

Business Overview

STABLISHMENT YEAR: 2011
PRODUCTION CAPACITY: 10,000 Tons/year
PROJECT SIZE: 25 hectares.
implementation plan of 45 hectare

TOTAL STAFF NUMBER: Over 1,500 Group Staff
TOTAL FACILITY SIZE: Over 258,000 sqm
TOTAL PRODUCTION YEILD: 20,000 tonne PA
TOTAL INVESTMENT: er QAR 500m

Industry Contributions

CONSUMER BRANDS YEAR OF ESTABLISHMENT

- Agrico
- Khudra
- 1977 Gulf foodstuff
- 2011 AGRICO
- 2013 Al Tahaluf

FOOD INDUSTRY LINES

- Organic vegetable production
- greenhouse production
- Meat processing
- Sales and marketing
- packaging and storage
- F& B consultancy services

THE CHAIRMAN MESSAGE

Mr. Ahmed Al-Khalaf

Our strategic plan is geared towards strengthening Qatar's food security by addressing import reliance, bolstering nutritional sustainability, and mitigating resource degradation amid climate and political challenges. With a foundation built on over 70 years of experience, our approach aligns with national priorities and the Qatar 2030 Vision. By prioritizing innovation, adaptation, and resilience,

we aim to ensure that our research caters to the needs of all farming scales. Supported by robust government backing and ample resources, we are confident in achieving tangible results for our stakeholders and partners, contributing to Qatar's overall security and prosperity. Through cutting-edge scientific research, we anticipate driving agricultural transformation and fostering a brighter future.

We invite you to join us on this journey.

MANAGING DIRECTOR MESSAGE

Mr. Nasser Al Khalaf

Embarking on Qatar's agricultural transformation, we prioritize breaking import cycles, enhancing food security, and combating resource degradation. Our strategic blueprint, drawing from over 70 years of experience, outlines bold initiatives. With government support and ample resources,

we're committed to delivering results. Through innovative research, we aim to cultivate a sustainable future, inviting you to join us on this transformative journey towards agricultural excellence. Together, let's sow the seeds of change and cultivate a future where Qatar thrives amidst challenges, achieving new heights in agricultural excellence and sustainability.

Vision & The Farm

Vision

To pioneer sustainable agricultural practices, leveraging cutting-edge technology and local expertise, empowering Qatar's journey towards self-sufficiency in food production while ensuring environmental preservation and fostering a thriving ecosystem for generations to come.

The Farm

The most sophisticated Air-conditioned Hydroponic facility in the State of Qatar. Able to harvest daily and distribute locally within 24 hours. The only local packed Brand/Organic, from Farm to Shelf.

Our Mission

At AGRICO QATAR, our mission is multifaceted

Sustainable Agriculture:

We are committed to pioneering sustainable agricultural methods that integrate global innovations with local wisdom, striving for year-round, high-quality produce while minimizing environmental impact.

Innovation and Research:

We incessantly pursue innovative scientific research, shaping the future of agriculture by providing solutions tailored to Qatar's climate conditions, ensuring crop quality, and enhancing production efficiency.

Educational Outreach:

We are committed to educating and empowering individuals about sustainable farming practices through workshops, training, and community engagement, fostering a culture of responsible agriculture.

National Food Security:

We dedicate ourselves to bolstering Qatar's food security, halting reliance on imports, and establishing a resilient food ecosystem aligned with Qatar's developmental priorities and the 2030 vision.

Empowering Farmers: We extend our expertise to support farmers, offering turnkey solutions and systems tailored to their needs, enabling them to cultivate produce efficiently, sustainably, and profitably in Qatar's unique climate.

Through these missions, we aim to create a sustainable, self-reliant, and ecologically conscious agricultural ecosystem in Qatar, contributing positively to our nation's growth and prosperity."

Our Farming Technology

Revolutionizing Agriculture for Sustainability

These technologies, employed by AGRICO QATAR, drive sustainable farming, ensuring food security while minimizing environmental impact.

- **Aquaponic:** Integrating fish farming with plant cultivation, aquaponic systems use nutrient-rich water from fish tanks to nourish plants, creating a sustainable, symbiotic ecosystem. This method reduces water usage and eliminates the need for synthetic fertilizers.
- **A-Stand:** A vertical farming solution, the A-Stand maximizes space efficiency by allowing plants to grow in a stacked structure. This innovative design enhances productivity in limited areas, making it ideal for urban farming environments.
- **LED System:** Advanced LED lighting technology simulates sunlight, ensuring optimal plant growth in any season. These energy-efficient lights provide the perfect spectrum for photosynthesis, reducing electricity consumption while boosting crop yields.
- **Growbags:** An alternative to traditional pots, growbags offer a flexible, lightweight solution for cultivating plants. They enhance root aeration, prevent waterlogging, and are ideal for both indoor and outdoor farming setups.

QATARI FERTILIZER PRODUCTS

Fertilizer Production

Organic Nutrient-Rich Solutions for Enhanced Crop Growth

At Agrico, we specialize in creating precise organic fertilizer blends for optimal crop growth. Our tailored formulations meet diverse crop needs, sourced from natural materials for environmental friendliness. With rigorous quality control, we ensure safety and consistency. Committed to sustainability, we innovate eco-friendly technologies and promote soil health. Through educational outreach, we empower farmers with sustainable practices, fostering a thriving farming community.

Modern Farming Tools

Modern farming tools have redefined agricultural practices, ushering in an era of efficiency and precision. At AGRICO QATAR, we embrace cutting-edge technology to enhance productivity and sustainability in farming. Our arsenal of modern tools encompasses a diverse range, from automated irrigation systems and precision planting equipment to drones and soil sensors. These tools revolutionize traditional farming methods, enabling precise resource management and data-driven decision-making. Through the integration of technology, we optimize crop yields, minimize resource wastage, and ensure the well-being of our crops. At AGRICO QATAR, we are committed to staying at the forefront of agricultural innovation, employing modern tools that empower us to cultivate the land more effectively and responsibly.

Our Farming Methods

At AGRICO QATAR, we focus on innovative hydroponic methods to cultivate high-quality produce, tailored to thrive in Qatar's unique climate. Our approach emphasizes efficiency and sustainability through five key hydroponic techniques:

1-Grow Bags: These bags provide optimal conditions for root development, offering precise control over nutrients and moisture.

2-Dutch Buckets: Ideal for larger crops like tomatoes, these buckets ensure a steady and consistent nutrient flow, supporting robust plant growth.

3-NFT (Nutrient Film Technique): This method delivers a thin film of nutrients to plant roots, promoting rapid growth while minimizing water usage.

4-A-Frame Stand: A vertical system that maximizes growing space, perfect for cultivating high-density crops like lettuce and strawberries.

5-Aquaponics: A sustainable method combining aquaculture and hydroponics, where fish waste supplies natural nutrients to plants, creating a balanced ecosystem.

Farming Steps

Seed Selection:

Choose high-quality seeds suited for the region's climate and soil conditions.

Crop Cultivation:

Employ innovative methods like hydroponics in controlled environments for optimal growth.

Harvest and Quality Control:

Utilize rigorous quality checks to ensure premium produce before distribution.

Agricultural Product is Very Important

Agricultural products form the bedrock of sustenance and economic stability globally, underpinning food security and driving diverse industries. For Agrico, this truth stands as a guiding principle. As a leading entity in the agricultural domain, Agrico acknowledges the paramount importance of agricultural products in meeting societal needs and fostering economic growth. Their unwavering commitment spans decades, with initiatives focused on organic vegetable production, greenhouse cultivation, meat processing, sales and marketing, packaging and storage, and even offering F&B consultancy services. Agrico's dedication to quality, sustainability, and innovation underscores their pivotal role in ensuring a consistent supply of high-quality produce. By leveraging cutting-edge technologies and adhering to stringent standards, Agrico not only contributes significantly to Qatar's self-sufficiency but also plays a pivotal role in catering to diverse consumer demands, solidifying their position as a cornerstone of the agricultural sector.

Green House

At **AGRICO QATAR**, we excel in designing, constructing, and utilizing cutting-edge greenhouse technologies for superior crop cultivation. In addition to traditional structures like the **Falat Nethouse**, **Multi-Span Nethouse**, **Hitech Multi-Span**, and **High-Tech Tunnel**, we integrate advanced systems for specialized crop growth.

Our **LED system** has proven effective for producing high-quality strawberries, while the **A-Stand** allows for efficient vertical farming in compact spaces. We also utilize **Aquaponic Systems** that combine fish farming with plant cultivation for sustainable production. Other systems, like the **Dutch bucket**, are perfect for larger plants that need more water, and the **NFT (Nutrient Film Technique)** ensures continuous nutrient delivery for fast-growing crops.

Our expertise extends from conceptualization to implementation, tailoring solutions to meet diverse crop needs while maintaining the highest quality standards. With these innovations, **AGRICO QATAR** leads the way in sustainable, year-round agricultural practices, ensuring premium crop production and environmental stewardship.

Our Organic Products

Our Products

Vegetables

At Agrico, we curate a selection of premium-quality vegetables, cultivated with a steadfast commitment to excellence. Our range includes an assortment of farm-fresh produce, meticulously grown to embody superior taste and nutritional value. Discover our vibrant offerings, from luscious vine-ripened tomatoes, including Tomato Normal, Tomato Bunch, Tomato Chocolate, and a medley of Tomato Cherry varieties in red, yellow, and orange hues. Delight in the crisp freshness of Cucumber, the tender succulence of Zucchini, and the rich flavor of Eggplant. Embrace the versatility of our harvest with nutrient-packed Cabbage, tender Beans, and a spectrum of Capsicum in green, red, yellow, and orange hues. Indulge in the delicate florets of Cauliflower, the verdant clusters of Broccoli, and the vibrant crunch of Red Radish and Okra. At Agrico, each vegetable embodies our dedication to quality, ensuring a colorful palette of flavors and textures for your culinary creations.

Our Products Leaves

At Agrico, we take immense pride in cultivating an array of vibrant and nourishing leaves, each meticulously grown to elevate your culinary experiences. Our diverse selection includes an assortment of flavorful herbs and greens, meticulously nurtured to meet the highest standards of freshness and quality. From the delicate and aromatic Dill to the nutrient-packed Spinach and the refreshing taste of Mint, our leaves encompass a spectrum of flavors and nutritional benefits. Delve into the richness of Coriander's distinct taste, the vibrant freshness of Parsley, and the crispness of Spring Onion. Explore the depth of flavor offered by Basil, the vibrant hues of Swiss Chard, and the unique textures of Microgreens and Kale. Whether you're seeking the robustness of Lolo Rosso or the delicate crispness of Lolo Bionda, our assortment of leaves promises to add freshness, flavor, and nutritional value to your culinary creations. At Agrico, our dedication to quality and diversity in leaves ensures a bountiful array of choices to enrich your meals with freshness and vitality.

Our Products Mushroom

At Agrico, our commitment to organic farming extends to the cultivation of premium-quality mushrooms right here in Qatar. Our organic mushroom farming stands as a testament to sustainable agriculture practices and superior product quality. Through meticulous attention to detail and adherence to organic farming principles, we nurture an array of mushroom varieties, ensuring the highest standards of freshness, taste, and nutritional value. Embracing sustainable cultivation techniques, our mushrooms thrive in a controlled environment, fostering optimal growth conditions while maintaining organic integrity. From earthy Portobello and meaty Shiitake to delicate Oyster and savory Cremini, our organic mushroom range embodies our dedication to providing Qatar with wholesome, locally cultivated produce. With a focus on sustainability and purity, our organic mushroom farming is a testament to our commitment to delivering natural, flavorful, and nutritionally rich products to our valued customers.

Shrimp Farm

At Agrico's innovative Shrimp Farm, we are dedicated to cultivating premium-quality shrimp through sustainable aquaculture practices. Our farm serves as a hub for nurturing a variety of shrimp species, meticulously rearing them to deliver exceptional taste, texture, and freshness. Through a commitment to responsible farming methods, we rear shrimp with care and precision, ensuring optimal conditions for growth and flavor development. Our farm hosts an assortment of shrimp species renowned for their delectable taste and culinary versatility. From the succulent sweetness of Whiteleg shrimp to the rich flavor of Black Tiger shrimp, our farm embodies our dedication to delivering superior-quality shrimp. At Agrico, our Shrimp Farm is committed to providing a diverse selection of responsibly farmed shrimp, meeting the high standards and preferences of seafood enthusiasts.

Our Projects

Honey Farm

At Agrico's Honey Farm, we embrace the artistry and precision of beekeeping to produce the finest quality honey. Our apiaries thrive amidst carefully selected and ecologically diverse locations, providing an abundant array of nectars from various floral sources. Through a harmonious blend of traditional beekeeping practices and modern techniques, we ensure the well-being of our bees and the purity of our honey. Our commitment to sustainable beekeeping not only yields exquisite honey but also supports the vital role bees play in pollination and ecosystem health. From the golden hues of Wildflower Honey to the delicate flavors of Acacia and the robust notes of Sidr, each jar of Agrico's honey represents our dedication to preserving the natural essence of floral nectars. As stewards of these precious resources, Agrico's Honey Farm stands firm in its commitment to providing nature's golden elixir — pure, natural, and bursting with the essence of diverse flora — to our discerning customers.

USDA ORGANIC

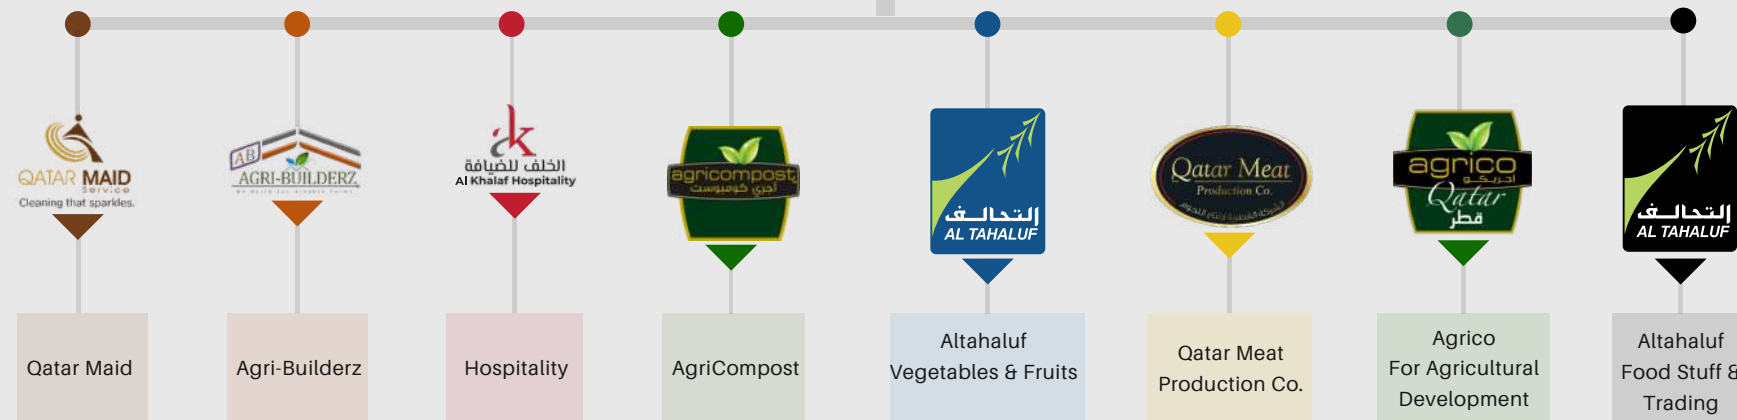

Agrico takes immense pride in its commitment to organic farming, validated by its prestigious certification from the Ecological Farming Control Organization (ETKO) in accordance with USDA organic regulations. This recognition encompasses a diverse range of organically cultivated produce, including Capsicum, Tomato, Cucumber, Zucchini, Chilli, Eggplant, and Tomato Cherry. Acquired through rigorous scrutiny and compliance with the US-Canada Organic Equivalency Arrangement, the certification signifies Agrico's dedication to meeting stringent organic standards, this recognition highlights Agrico's unwavering commitment to sustainable agricultural practices, ensuring the integrity and purity of its organic products. Awarded by ETKO on behalf of Agrico, this certification stands as a testament to our pledge to deliver premium-quality organic produce, fostering trust and confidence among our valued consumers.
